Sm Lib., 32:48

31 W. Vernon St-
Boston March 13th
1862

My dear Sir:

25 I send you the documents promised and in looking over the pages I have sometimes been unable to restrain my indignation at the assumption, arrogance and injustice displayed. In writing the Resolutions of the N.Y. Academy and seeing the spirit of intolerance & injustice which it contains as well as the insulting innuendoes. I feel more than ever thankful for your kind suggestions which & modified expressions in the original resolutions which might otherwise have seemed harsh & intolerant

The statement has met the approval of those I most cared for, and has been fully published in Boston Journals I wish to give it a wide publicity and if it is not troubling you too much will you write a note to Mr Greely of the Tribune asking him to publish it. and perhaps Mr. Bryant who by the way is a strong homoeopath would do the same.

I am my dear Sir
Very sincerely
A. T. Talbot
